Subject: Monthly Activity Update

Dear Valued Member,

At the previous board meeting on June 25th the directors approved a motion to cancel the 2020 fall reunion. It also approved a motion to extend the term of the current directors for one year. Board approved minutes are located under the MEMBERS ONLY tab of our website (www.l4aa.org), a password protected tab.

Your association worked diligently to create a scholarship fund to support deserving L-4 members. The fund is growing, and all donations received to date are appreciated. There is approximately \$1,500 in the fund. Closing out the calendar year at the \$2,000 level is an attainable goal. Please consider our request for tax deductible donations. Mail your check to Darlene Williams, Director of Finance, 1807 Felts Parkway, Fort Mill, SC 29715. Make your tax deductible donation payable to the L-4AA Scholarship Fund.

By this time next month, NC State University will be in full swing again and so will the PRs of L-4. I hear that classes will be a combination of virtual and traditional classroom courses. With respect to our famed bell tower, the long-awaited bells are being installed in its belfry. No longer will artificial music be heard by speakers. Live chimes will be a reality for listeners to enjoy. University officials are planning a dedication ceremony sometime in the spring of 2021.

By request, I have provided a link to another article I wrote and posted on my LinkedIn page. All the engineers in our group should appreciate this one. I hope you enjoy the [Building of the Washington Monument](https://www.linkedin.com/pulse/building-washington-monument-joe-harris/).
